Melissa

I don't know who at EPA will be working on the coal mine discussed below but maybe you can pass it on as a heads-up. I sent you a copy of our comments on the mining permit application (November 30, 2010).

The Seven Hills Mine (S-357) has been approved. They are proposing about 400 acres of wetland impacts (as they have from the start). I don't know all the details, except that the mining permit authorizes immediate minor impacts in uplands but does not allow any mining in wetlands until a 404 permit is approved. To my knowledge they don't have an active 404 permit application at this time.
